

A different view of the world, with all its pros and cons, its beauties and ugliness have always fascinated me. A view that is unique and distinctive for everyone. My view of the world is to record and share. My good friend for this is my camera lens.

MY LATEST PROJECTS

The Following photos are my latest projects that took place in iran and turkey. It was fun to participate in these projects.

After graduating from university, I decided to pursue photography more seriously. In the field of news photography and participation in various festivals, I decided to participate in group exhibitions inside and outside of Iran to share my view of the world with the world. Now in the 30th decade of my life, photography is perhaps my most fascinating and sweet concern in life, which always leads me to a new direction and a more beautiful and different look

Day Dream

This is about a woman who has a lot to say and think
but
she has no thing but herself

My weapon to fight with
cruelty is my camera.
It helps me show my
true feelings toward the
model's face.

I believe that a picture
can change the
world, and here I am with
my best friend.

When your eyes see, your
heart feels...

I believe that every
people have their own
story if you want to
listen.
If you want to catch you
can have them all and
feel them too.

I can help you to feel
that stories...

The Queen Of Hearts

the Queen of hearts is a woman who touch your hearts.
A queen can make you a king and
also
can be your nightmare

I Believe that every woman can be the best queen in the world, but it depends on your treatment to her.

A woman can led you to the true happiness.
