NEWSPAPERS PHOTOGRAPHY

Photography changed my life differently and led me to achieve my goals. I always have had a very strong passion for writing and like my other achievements in my life, photography helped me to reach that goal to being on books makes me feel an author I always wanted differently.

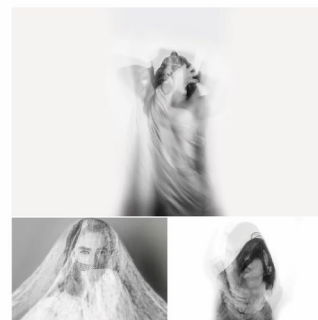

I believe that photography is my pen to write a book about life...

Cinema is the most important art in my country, every photographer in Iran is trying to participate in cinematic events every year, as a photojournalist in my country, I try my best to introduce the cinematic art of Iran to the world, it's fun and also hard to define an actual art by another one.

I believe that the cinema photography can be as hard as catching a bullet in war...

Every country has its own products that define that country. Hijab is the main rule of the Islamic Republic of Iran. So, every day many designers are trying their best to design a unique kind of scarf that shows the true identity of Persian culture and women. This Project was one of my unique projects which shows the culture and art of my country. It was so fun and memorable for me to be a part of this project.

Persian Scarf

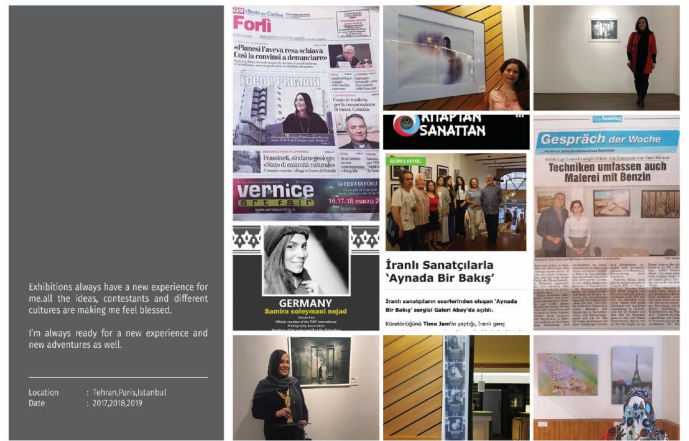

I believe that traveling is the most adventurous hobby in the world, when I go to another country or even another city, I try to know every people and culture I am dealing with. I would love to know all over the world and it can be inspirational.

Traveling can heal my soul...

A different view of the world, with all its pros and cons, its beauties and ugliness have always fascinated me. A view that is unique and distinctive for everyone. My view of the world is to record and share. My good friend for this is my camera lens.

After graduating from university, I decided to pursue photography more seriously. In the field of news photography and participation in various festivals, I decided to participate in group exhibitions inside and outside of Iran to share my view of the world with the world.

Now in the 30th decade of my life, photography is perhaps my most fascinating and sweet concern in life, which always leads me to a new direction and a more beautiful and different look
